## Summary

I am a dedicated student pursuing a journey in software development. My primary focus is on learning programming, building real-world projects, and maintaining a strong problem-solving mindset. I am constantly expanding my knowledge in both front-end and back-end development.

## Skills

**Programming:** C, C++, Python

**Web:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS

**Tools:** Git, GitHub, VS Code

## Projects

### Personal Portfolio Website

A fully responsive personal developer portfolio website to showcase my skills, projects, and contact information. Engineered with a component-driven architecture and optimized for modern web performance.

*Technologies: Next.js, TypeScript, Tailwind CSS, React*

### Grab

A feature-rich e-commerce web application facilitating seamless online shopping experiences with robust state management and scalable backend architecture.

*Technologies: React, TypeScript, Node.js, Supabase*

### SwaadDesh

A regional food discovery and delivery platform web application. Designed to connect users with authentic local cuisines with high performance routing and fast backend APIs.

*Technologies: Next.js, TypeScript, Python, FastAPI, Supabase*
